Today, change happens at light speed - as REALTORS®, and as a Board collectively, we need to be ready to go when that change comes calling! I am committed to contributing my decades of regulatory experience and skills to CREB®'s plans for excellence in governance in our industry and advocate for our members' best interests.

The Board recognizes the importance of experience in the different working parts of our organization. I have spent the past 5 years learning the Board's processes by serving on, and eventually becoming the President of CREB®'s Critical Illness Benefit Society (CIBS), as well as by serving on the Inquiry Committee.

I am a career collaborator with decades of experience in regulatory, governance and compliance. I have been proud to call Calgary home since 1998, be a realtor for the past 10 years, and a former land agent & certified mediator facilitating oil & gas and telecom site acquisitions.

My risk avoidance skills have been honed through my employment in various regulatory and compliance fields:

- Alberta Energy and Utilities Board (Hearings)
- Rocky View County Planning and Development (Public Hearings)
- Regulatory & Community Affairs Coordinator for land brokerage (Land Compensation Board, Surface Rights Board preparation)
- Telecom site acquisition specialist
- Ontario Gaming Commission (Security Specialist CWL)

I am a strong believer in giving back, as reflected in my volunteer experience:

- Critical Illness Benefit Society, CREB®, Past President
- Inquiry Committee, CREB®
- Urban Planning Committee, Federation of Calgary Communities
- University of Calgary's Faculty of Environmental Design Urban Lab, Steering Committee
- Rosscarrock Community Association, Director
- REMAX Group Advertising Committee

I understand the future

I am familiar with municipal and provincial process

I am prepared to represent our membership's interest at every level
